

# Camatril® 733

## APPLICATION

- › agriculture and horticulture
- › laboratory work
- › automotive and supply industry
- › petrochemistry and printing industry
- › paint shops
- › chemical industry
- › maintenance and cleaning
- › handling of epoxy resins

## QUALITIES AND ADVANTAGES

- › good grip when handling wet parts
- › good sensitivity
- › good resistance against a variety of different hazardous substance groups
- › good temperature flexibility
- › high mechanical resistance

Article no.	733
Name	Camatril® 733
Material	nitrile
Description	long cuff, roughened, unlined
Length (mm)	575 - 625
Total thickness (mm)	0,5 ± 0,1
Colour	green
Size	8, 9, 10, 11
Classification	category III

## FEATURES

- › AQL < 0,65
- › glove surface free from silicone (lacquer indifference, test method automotive industry)
- › good antistatic and electrostatic properties
- › food safety according to EU 1935/2004
